2017 - 2020

## CAREER OBJECTIVE

Information Technology student with a passion for web development, seeking an internship position at Bluebik to apply and develop my frontend skills and various languages to delivery of responsive and etficient applications for every Bluebik client.

## EXPERIENCES

### Integrated Project - Kradan Kanban

Apr 2024 - Present

This project is similar to a To Do List or tasks board.

- Led team of 3 person to create Kradan Kanban app to keep on track with project plan, timeline and requirements
- Design all pages and use Vue.js library for building web user interfaces.
- Deploy application on Ubuntu server using Docker

### Send Liff Message

Aug 2024 - Sep 2024

This project processes customer purchase data by allowing users to filter the data using drag-and-drop functionality. The filtered data is then used to send personalized flex messages to customers via LINE OA. The project is built with Next.js and retrieves data through Meilisearch and DynamoDB.

### Images Generate

Jul 2024 - Sep 2024

- Able to download the generated images according to user input.
- Create API to return image by using Next.js

## Skills
